1. Don't let the water run while brushing your teeth.
2. Always turn off the light and the TV when you leave a room.
3. Grow up instead of buttons: will pollute the water.
4. Go to school on foot by bike or by public transport.
5. Do the separate collection, never throw waste on the ground or in the water.
6. Do not use disposable items.
7. Do not follow Trends and try to keep shoes, clothes and cell phones as long as they work.
8. Convince your parents to use renewable energy and LED bulbs.
9. Collect the plastic litter that you find on the ground or in the water.
10. Use water bottles not plastic bottles.
11. Make it the companion of milk.
12. Buy seasonal fruit and vegetables.

There is no Planet B

13 CLIMATE ACTION

When I go to school or when parties, I drink a lot of water. I don't like using many plastic bottles so I prefer filling my reusable bottle with mineral water.

I like electric cars and I think it's great and parents like them too because they pollute less. I don't like the idea of using cars that are not electric because I like to save money.

When I go to my homework, I turn off the lights and my parents know it so they like following the rule and I study in the morning so I can have the natural sunlight.
